Q: c# Thread executes the function at the same time I want to send messages to the server when the computer starts. The thing is that I need to send the same messages in some time interval. I use Thread and Timer for that. `public void Start() { Thread.CurrentThread.Name = "First"; Timer timer = new Timer(); timer.Interval = 5000; timer.Elapsed += timer_Elapsed; timer.Start(); } private void timer_Elapsed(object sender, ElapsedEventArgs e) { Thread.CurrentThread.Name = "Second"; var test = "This is a test!"; var json = JsonConvert.SerializeObject(test); HttpClient client = new HttpClient(); var url = ""; string response = "0"; client.DefaultRequestHeaders.Accept.Add(new MediaTypeWithQualityHeaderValue`
