## Farming Simulator 2011 Multiplayer Lan Crack VERIFIED

---

Hi guys I was looking for help on how to connect 2 laptops via LAN so my friend and I can play can anyone give us step by step way. ^^ I know it's possible, I just don't know how. Thank you in advance I was just looking for this to find a way to do this. I have 2 computers, one is mine and the other is my friend's. My problem is that we can't play games like HpP because I have everything on my computer. This is my laptop: I tried everything I could and it didn't work. So I need some way Windows 7 has a "remote desktop connections" tool from the start menu.
